Edmund Bersch Pleads Guilty-Others May Follow Suit.

St. Louis: The most pronounced sensation of the St. Louis boodle investigation since the return of John K. Marrell from Mexico developed Monday when it was announced that Edmand Bersch, Charles F. Kelly and Charles A. Gutke had decided to plead guilty and throw themselves upon the mercy of the court.

Bersch at once took this course sentence being deferred until Friday. Kelly and Gutke will make their pleas on July 11.

Rollowing closely upon this announcement came the withdrawal of Thomas J. Rowe as attorney for the three defendants.

Kelly and Gutke, it is expected, will disclosures of a sensational nature are expected with regard to Kelly's famous trip to Europe, from which he returned only after the expiration the time within which certain wealthy alleged bribe-givers could be indicted for putting up the \$47,500 boodle in the city lighting deal. This matter, it appears, is to be reopened.

Bersch, Kelly and Gutke are all charged with bribery in this deal. All of them have been convicted in the Suburban deal, Bersch and Kelly of perjury and Gutke of bribery. Bersch and Gutke received sentences of five years each and Kelly two years. All of these cases were appealed to the supreme court.

The action of Bersch, Kelly and Guthe is said to have been determined upon at a conference held the night following the affirmation of the penitentlary sentences of Lehmann and Hartmann. It indicates the final breaking up of the boodle conspiracy which has made the punishment of bribe-givers and bribe-takers apparently almost impossible in Missouri.

#### HINTS THAT DUMONT WAS TO BLAME

Conveys impression that the Aeronaut Didn't Exercise Proper VigHance,

St. Louis: The special report by Lieut, Col. Henry P. Kingsbury, commandant of the Jefferson guards at the World's Fair grounds, on the partial destruction of M. Santes Dumont's airship at the aeronautic concourse some time Monday night or Tuesday morning was delivered to President Francis Wednesday afternoon. So far as made public, the report conveys the impression that the aeronaut did not exercise proper vigilance in guarding his machine, and that had Dumont taken adequate precautions in co-operation with the Jefferson guards, the

cutting would not have occurred. As given out Wednesday afternoon, the report does not charge that Dumont himself was implicated in the affair, Colonel Kingsbury calls the president's attention to two facts which he appears to think bear strongly on the case. First, that Domont was warned of the danger of leaving the box containing the balloon uncovered during the night, and of the necessity for appointing special guards, who would be given accommodations in the Aerodrome bullding; second, that one of Dumont's French assistants possesses a large knife. "Owing to the strength and numerous folds and tnickness of the balloon envelope, some such knife as this would have says the report.
